

LETTER OF RECOMMENDATION

My name is Stefan Eriksson, I'm 29 years old and I have my home in Munich, Germany.

I play tennis for the Iphitos club in Munich, in the German Bundesleage together with Michael Stich among others.

I'm also a coach in the Iphitos club.

I have been a professional tennis player for 7 years and my best ranking was number 60 on the international ranking list.

This letter is to certify that I have known Thor-Bjorn Bergman for 3 years, partly as the president for the Tennis Club of Enkoping, the swedish town I come from, and partly as a good friend and tennis coach.

Mr Bergman has for one year helped me with my development in tennis, for example trough mental and goal controlled tennis training.

Mr Bergman is a very good pedagog and has developed a unique system for goal controlled training suitable both for those who play just for the exercise and elite players.

According to the above I give Mr Bergman the best recommendations.
